

Offering a full 317mm / 12 1/2" cutting width, Triton's high performance planer / thicknesser delivers 17,500 cuts per minute for a high quality, consistently smooth finish to the workpiece. Large infeed and outfeed tables provide support for long workpieces and a capacity for timber from 3.2mm / 1/8" up to 150mm / 6" depth. A circuit breaker ensures enhanced electrical safety and the dust chute, which can be mounted on either end of the thicknesser, provides a cleaner, safer, working environment. Precise setting of the cutting depth is easy with the graduated depth crank handle and clear, easy-to-read thickness scale. The 4-post column design provides rigidity and allows the cutter head to be raised and lowered smoothly and accurately for precise results.
